## Kunkel, Mark

**From:** Grant, Peter  
**Sent:** Tuesday, January 29, 2013 1:14 PM  
**To:** Kunkel, Mark  
**Subject:** FW: Change to BB0430 - UW System - Carbone

Could you do this one? If so, I can forward it to you (I've already entered it).

---

**From:** Boggs, Breann C - DOA [<mailto:Breann.Boggs@wisconsin.gov>]  
**Sent:** Tuesday, January 29, 2013 11:39 AM  
**To:** Grant, Peter  
**Subject:** Change to BB0430 - UW System - Carbone

Hi Peter,

Here are alternative instructions for the Carbone Cancer Center draft:

- Create a new biennial appropriation under program 1 of s. 20.285
- Appropriation name: Translational imaging research program

Two potential models:

- Biennially, the amounts in the schedule for translational imaging research under (new section in chapter 36)
  - Release of moneys under this paragraph is subject to approval of a plan submitted to the department of administration secretary by the University of Wisconsin Carbone Cancer Center to raise matching funds for each dollar appropriated.

Alternatively –

- Biennially, the amounts in the schedule for the purpose of providing state funds to supplement, on a one-to-one matching basis, funds received by the University of Wisconsin Carbone Cancer Center for Wisconsin Oncology Network of Imaging Excellence Program, translational imaging research, research imaging and scanning costs, research imaging equipment, and related programs from federal, private foundation, or individual donations. (modeled after 20.445 (1)(cr))
- Create a special program in chapter 36: Translational imaging research program
  - The University of Wisconsin Carbone Cancer Center shall use the moneys appropriated under 20.285 (1) (NEW ALPHA) for translational imaging research, research imaging technical and scanning costs, the Wisconsin Oncology Network of Imaging Excellence Program, research imaging equipment and other related costs.
  - The University of Wisconsin Carbone Cancer center must submit a plan to raise matching funds for each dollar appropriated under 20.281 (1)(new alpha) for approval by the Department of Administration Secretary before any moneys will be released from the appropriation.

Let me know if you have questions – or insights.

Thanks!

## Kunkel, Mark

---

**From:** Boggs, Breann C - DOA <Breann.Boggs@wisconsin.gov>  
**Sent:** Wednesday, January 30, 2013 10:30 AM  
**To:** Kunkel, Mark  
**Subject:** Direct References to Carbone Cancer Center

Hi Mark,

Here's a reference in the chapter 255 – that references Carbone in reference to moneys appropriated; but references the Board of Regents in regards to reporting requirements.

In the case of the new appropriation – Carbone will be conducting the fundraising – so it seems to me that the cancer center should be referenced directly – both in terms of receiving the dollars appropriated and submitting a fundraising plan to the DOA Secretary.

**255.054 Prostate cancer research program.** (1) The Medical College of Wisconsin, Inc. shall use the moneys appropriated under s. 20.250 (2) (h) and the University of Wisconsin Carbone Cancer Center shall use the moneys paid under s. 71.10 (5h) (i) for prostate cancer research projects. These moneys may not be used to supplant funds available for prostate cancer research from other sources.

(2) Annually by January 1, the Medical College of Wisconsin, Inc., and the Board of Regents of the University of Wisconsin System shall each report to the appropriate standing committees of the legislature under s. 13.172 (3) and to the governor on the prostate cancer research projects each has conducted under sub. (1) in the previous fiscal year.

The other reference to Carbone is under s. 71.10 (5h) (i). In this case – the dollars collected from tax check-offs (related to cancer research) are received by Department of Revenue – then transferred to UW's 'funds transferred from other agencies' appropriation under the 20.285.

- (i) Appropriations. From the moneys received from designations for the cancer research program, an amount equal to the sum of administrative expenses, including data processing costs, certified under par. (h) 1, shall be deposited in the general fund and credited to the appropriation account under s. 20.566 (1) (hp), and, of the net amount remaining that is certified under par. (h) 3, an amount equal to 50 percent shall be credited to the appropriation account under s. 20.250 (2) (g) and an amount equal to 50 percent shall be credited to the appropriation account under s. 20.285 (1) (k) for cancer research conducted by the University of Wisconsin Carbone Cancer Center.

## Statewide Networks

The purpose of the following research networks is to examine, evaluate and improve clinical and public health practice. They also provide important collaboration opportunities with non-academic based health practitioners:

### The Wisconsin Research & Education Network (WREN)

WREN is a statewide primary care, practice-based research network. Researchers may collaborate with WREN when their research involves partnerships with multi-site primary care clinicians, practices, and the communities they serve; quality improvement/enhancement; and underserved populations.

### The Wisconsin Network for Health Research (WiNHR)

WiNHR supports a statewide clinical and translational infrastructure and offers opportunities for collaborative research between institutions and communities around the state. The four founding members of WiNHR are the UW School of Medicine and Public Health, Aurora Health Care, Gundersen Lutheran Medical Foundation and the Marshfield Clinic Research Foundation.

### Pharmacy Practice-Based Research Network

The Sonderegger Research Center (SRC at School of Pharmacy) facilitates pharmacy practice and research by developing and collaborating with pharmacy networks.

### Wisconsin Public Health Practice-Based Research Network (PBRN)

The Institute for Wisconsin's Health is a network that will manage project activities. Funded by the Robert Wood Johnson Foundation to help Wisconsin develop a practice-based research network, it is focused on public health systems and services. Wisconsin, with its Department of Health Services as lead, joins five public health PBRNs already in existence.

### Wisconsin Oncology Network (WON)

WON is a regional network that allows community health centers to enroll patients in select cancer clinical trials that are open at the Carbone Cancer Center. It is connected to 16 different centers throughout Wisconsin. For more information on WON, email [affiliatecoordinators@uwcarbone.wisc.edu](mailto:affiliatecoordinators@uwcarbone.wisc.edu).
